SUMMARY

B.Tech Computer Science & Engineering student with knowledge of C, C++, Python, SQL, HTML, CSS, and JavaScript. Have worked on projects related to web development, databases. Interested in web designing and learning new technologies. Looking for opportunities to improve my technical skills and gain practical experience.

EDUCATION

Bachelor of Technology in Computer Science & Engineering

Swami Rama Himalayan University, Dehradun

2023 – Present | CGPA: 8.68

Intermediate (Class XII)

D.B.S. Inter College | UK Board

2023 | 64%

High School (Class X)

D.B.S. Inter College | UK Board

2020 | 64%

PROJECTS

Online Attendance Register System

Technologies: PHP, MySQL, HTML, CSS, JavaScript

- Developed a web-based attendance management system for maintaining student attendance records.
- Implemented PHP for application logic and MySQL for storing and managing attendance data.
- Designed a user-friendly interface for recording and managing attendance.
- Enabled organized storage and retrieval of student attendance records through the database.

NyayaDhrishti – Campus Authority Suggestion System

Technologies: Next.js, JavaScript, Firebase/Firestore, HTML, CSS

- Developed a web-based campus platform focused on collecting and managing student suggestions.
- Implemented a campus authority suggestion system to facilitate communication between students and authorities.
- Integrated Firebase as the backend for application data management.
- Worked with Firestore security rules to manage access to stored data.
- Contributed to the development and improvement of the web application.

DemoCrypt – Aadhaar-Enabled Web-Based Voting System

Technologies: HTML, CSS, JavaScript, Next.js, Firebase/Firestore

- Updated a web-based voting system to incorporate Aadhaar-based user verification/authentication.
- Worked on the web application structure and user-facing voting functionality.
- Used Firebase/Firestore for application data management and backend services.
- Worked with database security rules to help control access to stored application data.
- Collaborated on the development and improvement of the existing voting system.

TECHNICAL SKILLS

Programming Languages: Python, C, C++, SQL

Web Technologies: HTML, CSS, JavaScript Basics

Core Computer Science: Data Structures & Algorithms Basics, DBMS, Object-Oriented Programming

Areas of Interest: IoT

Database: MySQL

Tools: Git, GitHub, VS Code, MS Office

CERTIFICATIONS

- Python
- Cyber Security — Udemy
- IoT — Swami Rama Himalayan University

ACHIEVEMENTS & ACTIVITIES

- Participated in hackathon and technical project development activities.
- Worked on technology-based project concepts focused on real-world problems.
- Participated in academic and technical activities at university level.

EXTRACURRICULAR ACTIVITIES

- Hackathon and technical project participation
- Dance
- Yoga
- Cooking
- Badminton
- Team-based project development
- Exploring emerging technologies in AI, ML, IoT and Cyber Security
